

# STUDIJNÍ POBYT

**Místo: Bournemouth**

**Jméno: Milena Borovičková**

# **My study stay in Great Britain**

- In September I spent two weeks in GB for a study placement. I lived in a family in a family house and I studied at Richard Language College in Bournemouth. My learning programme took 20 hours per a week. In my free time I could recognize surroundings of Bournemouth town.

# My Family

- The family I lived with owned a large and renovated house in a quiet quarter of the town. I lived in a large room in the attic of the house with a view to garden, where foxes played in night and cats during the day. My housewife was kind and talkative, she loved cooking. The house was nicely heated, which is quite strange in England.

# My Trips

- From my stay in Great Britain I have a lot of great and unforgettable experiences. For example on Sunday, my second day of the stay, I went for a trip with my colleagues. We rented bikes and rode along the beach and nature monument Old Harry Rocks to the Corfe Castle. The day was very nice, sunny and we had a great time.

# The Monuments

- But on the way back a dog ran into my direction and I fell off the bike. I hurt my knee and eye, which turned blue in few moments after the accident. I at once people run to me and offered me a help. Terrible picture, I would have to explain in English what happened to me. So I preferred to take all courage and got back on the bike and continued my way. During the stay we visited many famous places such as picturesque town Pool, enjoyable Christchurch with gothic cathedral, nature monuments Durdle Door on Jurassic Coast, Old Harry Rocks or medieval castle Corfe Castle. We got there by buses, especially I like double-deckers, or by train or by bikes. Most often we also walked.

# Swimming

- One day I was very brave. It was sunny, warm day and the thermometer showed 20 degrees', so I went swimming. It was a really fast action, because the ocean was extremely cold as an ice. But I would regret if I didn't try it.

# The language school

- The teachers in our language school were very friendly, and nice to us, students as well. In our group, we were 7 students, 5 from Czech Republic, 1 from Taiwan, 1 from South Korea. I wanted to improve my English, I think, I have managed it. The stay was very useful for me. I would like to thank all organisers for this study stay.

# The arrival

## ■ Heathrow

# My bedroom

# First day- a trip

# The ferry
